Dear Tony

PRIMROSE HOSPICE WEBSITE

I am writing to thank you, Richard, Sandy and Julie for all the hard work you have jointly applied to making our website so successful.

So far, since the website launched at the end of March, we have had over 1,000 unique visitors and although I don't know if this is to be expected for our type of site, I am extremely pleased that this number of people have found their way to our website so easily.

I have received external positive feedback as follows:-

From a software company in Redditch '... however your website is very good, therefore having the Internet, I found you very quickly'.

And

From another IT/web consultant '... I love your website! I clicked through to a pile of sites looking for good examples and used yours for the great interactive design and nice content'.

I look forward to working with you further, as the website develops over time.

Kind regards

Lorraine Hart
